

ANNUAL LISTING OF OBLIGATED TRANSPORTATION IMPROVEMENT PROJECTS

for

Federal Fiscal Year 2024

December 27, 2024

Disclaimer

The preparation of this report has been financed through the U.S. Department of Transportation's Federal Transit Administration (FTA) and Federal Highway Administration (FHWA). This document is disseminated under the sponsorship of the New York Metropolitan Transportation Council (NYMTC) in the interest of information exchange. The contents of this report reflect the views of the authors who are responsible for the facts and accuracy of the data presented herein. The contents do not necessarily reflect the official views or policies of the Federal Transit Administration, Federal Highway Administration, or the State of New York.

Title VI Notice to the Public

The New York Metropolitan Transportation Council (NYMTC) is committed to compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, Title II of the Americans with Disabilities Act, Section 504 of the Rehabilitation Act of 1973, Executive Order 12898 on Environmental Justice, Executive Order 13166 on Limited English Proficiency, and all other related nondiscrimination statutes, rules, regulations, and executive orders cited in its Title VI/Non-Discrimination Program.

NYMTC assures that no person or group(s) of persons shall, on the grounds of race, creed, color, national origin, sex, marital status, disability, age, sexual orientation or income level, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination through the federally mandated metropolitan transportation planning process undertaken by NYMTC, whether the activities are federally funded or not.

It is also the policy of NYMTC to ensure that all its plans, programs, procedures, policies, and activities do not have disproportionate adverse effects on minority and low-income populations. Minority and low-income communities, as identified through the United States Census, will be engaged to facilitate their full and fair participation in the metropolitan transportation planning process. In addition, NYMTC will provide meaningful access to services for persons with limited English proficiency.

Regarding the distribution of federal-aid funds to eligible subrecipients, NYMTC will include Title VI/Non-Discrimination language in all written agreements entered into through its administrative host, the New York State Department of Transportation, and will monitor those agreements for compliance.

NYMTC is responsible for initiating and monitoring the organization's Title VI/Non-Discrimination Program, for preparing related reports, and for other requirements and responsibilities under Title 23 Code of Federal Regulations (CFR) Part 200 and Title 49 CFR Part 21.

Listing of Projects and Project Phases Obligated During FFY 2024	7

Introduction

Every day, the New York City metropolitan region's transportation system is called upon to efficiently and reliably deliver people and goods to countless destinations within its region and beyond. This vast network of rails, roads, bridges, waterways and trails makes it possible for workers to get to jobs, students and teachers to educational institutions, and visitors to attractions, as well as for goods and services to reach consumers.

Transportation improvement projects are planned, programmed, and executed on a regular and ongoing basis in order to maintain and improve this massive transportation system. For the portion of the system in the City of New York and the surrounding suburban counties of Putnam, Rockland, and Westchester in the lower Hudson Valley and Nassau and Suffolk on Long Island, over 1,030 such projects are currently contained in the regional Transportation Improvement Program, or TIP, for federal fiscal years (FFYs) 2023-2027, which was adopted by the New York Metropolitan Transportation Council (NYMTC) on October 13, 2022.

During each fiscal year, requests for the obligation of federal funding are made for hundreds of programmed project phases in the NYMTC TIP. When the funding is obligated by federal oversight agencies, federal reimbursement of project costs can begin.

How Are Transportation Improvement Projects Planned and Funded?

NYMTC is a regional council that is the federally-required Metropolitan Planning Organization (MPO) for New York City, suburban Long Island, and the Lower Hudson Valley. NYMTC is comprised of nine voting and seven advisory members. Voting members include the county executives of Nassau and Suffolk counties on Long Island and Putnam, Rockland and Westchester counties in the lower Hudson Valley; the Commissioner of New York City's Department of Transportation and the Director of the New York City Department of City Planning; the Commissioner of the New York State Department of Transportation and the chief executive officer of the Metropolitan Transportation Authority.

Advisory members include the chief executive officers of the Port Authority of New York and New Jersey, New Jersey Transit, and the North Jersey Transportation Planning Authority; the Commissioner of the New York State Department of Environmental Conservation, and the Regional or Division Administrators of the Federal Highway Administration, the Federal Transit Administration, and the United States Environmental Protection Agency.

NYMTC is responsible for undertaking regional transportation planning activities for its planning area that lead to funding for the transportation improvement projects that keep the transportation system functioning. The federal legislation which authorizes spending nationally for transportation improvements requires MPOs to follow a metropolitan transportation planning process in order to obtain federal funding. The foundation of this process is a long-range Regional Transportation Plan which defines the region's long-term needs and conceptual solutions. With the Plan as a framework, various specific transportation improvements are defined and their phases added to the TIP. As required by federal regulations, the TIP is a medium-range program of transportation

improvement projects that covers a minimum of four years. NYMTC's adoption of the Plan and TIP for its planning area affirms that the transportation improvements it has planned and programmed are eligible to receive federal funding.

How Are Transportation Projects Implemented?

Federal funding is authorized through legislative actions taken periodically by Congress. Successive authorization acts maintain, revise or increase federal transportation funding over time. Federal authorization legislation is reflected in Title 23 of the United States Code for funding programs primarily authorized for highways and Chapter 53 of Title 49 for funding programs targeted to public transit.

Authorized federal funding must be appropriated by Congress each federal fiscal year before it can be made available to reimburse transportation project costs. Actual permission to spend the authorized amounts is dependent on annual appropriation acts. Transportation improvement projects that are programmed on the TIP, whether they involve the purchase of vehicles or equipment, construction or rehabilitation of facilities, or the eligible provision of services, are scheduled by the various phases they must move through as they are developed and implemented.

Once a project is included in a TIP adopted by NYMTC, funding for each of its phases must then be obligated. The obligation of funding is a formal federal commitment to reimburse a specific amount of funds for a project's various phases. In contrast, the programming of funds on the TIP enables this eventual commitment. Obligation begins the flow of federal funds to a project. Funding administered by the Federal Highway Administration is obligated to projects and/or their phases, while funding administered by the Federal Transit Administration is awarded to projects and/or their phases through a grant process. A grant award is a different form of obligation. Funding obligation is a critical milestone in the implementation process for transportation improvement projects.

Reporting Federal Obligations

NYMTC is required to publish a listing at the conclusion of each fiscal year showing the obligation activity during that year. Per 23 CFR 450.334:

- (a) In metropolitan planning areas, on an annual basis, no later than ninety calendar days following the end of the program year, the State, public transportation operator(s), and the MPO shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were obligated in the preceding program year.*
- (b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally-funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under § 450.326(g)(1) and (4) and identify, for each project, the amount of federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the federal funding remaining and available for subsequent years.*

(c) The listing shall be published or otherwise made available in accordance with the MPO's public participation criteria for the TIP.

This *Annual Listing of Obligated Transportation Improvement Projects for Federal Fiscal Year 2024*, which identifies obligations during the fiscal year that began on October 1, 2023, and ended on September 30, 2024, fulfills NYMTC's obligation under 23 CFR 450.334. Projects and/or project phases obligated during FFY 2024 are listed in subsequent portions of this report. A map that spatially displays the listing of projects is available through www.nymtc.org.

Summary of FFY 2024 Obligation Activity

During FFY 2024 (October 1, 2023, through September 30, 2024), 408 projects from NYMTC's TIP were federally obligated in whole or in part. These obligations involved over \$4.462 billion in federal funds or 31% of the \$14.613 billion in federal funding programmed in the FFYs 2023-2027 TIP. The figures below summarize these obligations by subarea and fund source.

Figure 1 - Minor Projects: Funds Obligated by Subarea and Funding Type

Table 1 - Minor Projects: Funds Obligated by Subarea and Funding Type

Amount Obligated in 2024 (\$ Millions)		Funding Type		
Subregion		Highway (Title 23)	Transit (Title 49)	Grand Total
Lower Hudson Valley	\$	208.96	\$ 60.70	\$ 269.66
Long Island	\$	123.46	\$ 8.22	\$ 131.68
New York City	\$	481.08	\$ 331.69	\$ 812.77
Grand Total	\$	813.50	\$ 400.61	\$ 1,214.11

Table 2 - Major Projects: Funds Obligated by Subarea and Funding Type

Amount Obligated in 2024 (\$ Millions)		Funding Type	
Subregion	PIN	Transit (Title 49)	Grand Total
New York City	ET250101	\$ 2,302.01	\$ 2,302.01
	G710-01AA	\$ 946.78	\$ 946.78
Grand Total		\$ 3,248.79	\$ 3,248.79

How to Read the Annual Listing

The Annual Listing is organized geographically by NYMTC's three subregions: the lower Hudson Valley, New York City, and Long Island.

The project listings include the following column headings:

COUNTY – The county within which work for the project is authorized.

PIN – The unique project identification numbers used to track projects.

PROJECT DESCRIPTION – A brief single-line description of the project. A more comprehensive description can be obtained from the TIP.

PHASE – The phase in the project development process for which funds have been obligated. Phases include Preliminary Engineering (PE, scoping, preliminary and final design or specification), ROW (Right of Way), CONST (construction or procurement, and construction inspection), or MISC (Miscellaneous), as well as DESCONST (design-construct) and VEHEQUIP (Vehicle Equipment).

PROJECT SPONSOR – The project sponsor represents the agency authorized to request obligation.

AMOUNT OBLIGATED FFY 2024 – The funding obligated within FFY 2024. A negative number in this field typically shows a project phase closing out, e.g., withdrawn or de-obligated. A zero dollar value (represented by a dash) in this field indicates that funds were shifted (i.e., between funding programs or from advance construction to federal funds) and the net change was zero.

AMOUNT PROGRAMMED IN FFY 2024 – The planned amount of funding programmed on the TIP for that phase in FFY 2024.

AMOUNT PROGRAMMED POST FFY 2024 – The federal funding programmed in subsequent fiscal years, which are FFYs 2025-2027 of the current TIP.

For the [ArcGIS Online visualization](#) of the listed obligated projects and/or project phases, the projects that can be spatially displayed have been filtered for obligated projects.

Listing of Projects and Project Phases Obligated During FFY 2024
